JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CUBA.

*Report from Havana.*HAVANA, CUBA, *June 4, 1901.*

SIR: I have the honor to submit the following report of the transactions at this station for the week ended June 1, 1901:

There have been no cases and no deaths from yellow fever reported during the week. During the month of May there were 5 cases of fever reported, with no deaths, 1 of the above cases being that of a seaman removed from the steamship *Matanzas* on her arrival here from Tampico; therefore, there were only 4 cases in the city during the month. This report of the month tallies with that of May, 1900, in which there were the same number of cases and no deaths.

Acting Assistant Surgeon Menocal, in charge of the Tricornia immigration and detention camp, reports that no immigrants or third-class passengers were examined by him for passage to any port in the island of Cuba during the week. He reports the following transactions at his station during the month of April: Fifty-two immigrants remaining over from month of March; 611 immigrants, nonimmunes, taken to detention station; 240 immigrants, immunes or who had already obtained employment in the city, were discharged from steamers; 851 immigrants represent total arrivals for month; 387 immigrants were discharged from station to Havana; 227 immigrants discharged from station to the country; 49 immigrants remained in station from month of April. There were no cases of sickness during the month.

I inclose herewith the usual mortuary and other statistics for the week.

Respectfully,

A. H. GLENNAN,
Surgeon, U. S. M. H. S.,

Chief Quarantine Officer for the Island of Cuba.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

[Inclosure.]
